THE PROBLEM

OUR CURRENT PROBLEM

Every human is seeking ways to ignite their mind and body more. Where we are in creation today is leaving many humans with a lack of or a missing of something.

We are cut off from true ancient techniques that help heal the body and soul. Many are living in the mind and not in the soul and heart. The way of activating a human's heart and soul has been purposely hidden from the masses.

The majority of humanity lives in a toxic creation.

02

THE SOLUTION

Here you are also shown how to silence one's mind, how to activate your body fully, and how to manifest your highest visions and dreams.

Featuring: transformational experiences, wisdom teachings, body teachings, universal teachings, animal loving, creators coming together to expand their wisdom and visions, healing arts of sound, expansion in interactive immersive events, obedience in unlocking your superhuman, production spaces, live stream feeds and social influencers uniting and igniting for change.

MYSTERY SCHOOL

A platform that can be duplicated around the world.

The school's are an intense training of embodiment bringing in ancient human techniques from around the world learning mindfulness and the evolving capacity of the human.

Organized around the human energy centers [chakras], the teachings and direct experiences of our mystery school's trace the movement of human awakening up the spine, from root to transpersonal.

Transforming emotions, developing concentration, living ethically, cultivating wisdom, refining awareness, redirecting motivation & teaching service & generosity.

This mystery school is an inter-spiritual experience of total immersion with Master Teachers trained in many backgrounds and traditions ranging from tai chi, martial arts, chi gong, tantra, kundalini, breath mastery, mind mastery, wisdom of our earth, wisdom of the multiverse and wisdom of the creations of other beings.
